

Hi, thanks for purchasing my designs, much appreciated :-)
Have fun in embroidering!

INSTRUCTIONS FOR FREE STANDING LACE COASTERS/DECORATIONS:

1- Keep your thread cutoffs day by day. This is the time to use them!

2- Place 1 layer of water soluble stabilizer on the lower hoop, then put a bunch of threads on it.

3- Put a second layer of water soluble stabilizer on it, so you have a sandwich with threads in the middle. Hoop it and put on machine.

4- Stitch each design (only 1 color and very quick stitching out!)

5- After designs are stitched, cut around edges and wash away the stabilizer in warm water.

6- Make them dry on a towel or using a hair-dryer to make it faster!

7/8- When coasters are dry, you're done!!

You can decide if keep frayed edges, or cleaner edges. In this case, just cut excess threads more close to the edges and then burn them quickly with a lighter.

Each time you'll get a unique coaster/ornament!
